Call for information on mounting methods for bahama shutters. They can close into an opening or overlap the trim, depending on your window layout and depth.

Premium Composite Shutters are crafted with decay resistant materials and a low-maintenance finish for long-lasting durability. They are made of composite materials, providing both functionality and authenticity and are designed for use with functional hinges and hardware.

Composite Shutter Exterior Finishing

Each shutter is wiped clean, prepped and prepared and finished with a premium Acrylic Urethane Enamel exterior paint.

Composite shutters are finished with a commercial coating that meets or exceeds AAMA specifications 613 & 623.

Vinyl safe Heat Reflective Colorants are required for colors with a (LRV)* light reflective value equal to or greater than 55 (Flat Black = 0, pure white = 100).*

Custom color charge may apply to orders less than 60 square feet
