Happy to recommend Shuttercraft! Craftsmanship is A+. Packing and shipping of shutters was A+ (packaging was almost a piece of artwork in themselves). Every measurement was exactly as we asked for. Labeling of all the pairs was brilliant. Steve Morgenthaler

HINGES & HOLDBACKS - Lift-off hinges and pintles are common ways of mounting shutters to the casing. Holdbacks (shutter dogs) are used to "hold" the shutter open. We offer several hinge types and offsets, along with decorative or hidden holdbacks, latches, pull rings, and more...

Stainless steel options are available for ocean areas.

MEASURING & CONSTRUCTION - Shutters were the first storm windows ... Most often shutters are sized to fill or cover the same opening as a storm window or screen when they are closed. Although shutters today are often installed for decorative purposes, they look best when sized for the window opening. If shutters will be functional, measure the area they will fill or cover when closed. Allow 1/4" clearance all around the opening for shutters that will close into a window pocket (casing). Mortise & tenon construction is time tested, proven to provide long life in wood shutters, among many other wood products and antiques still with us today. Western red cedar is a renewable resource, the preferred wood for exterior shutters, and it is naturally decay resistant.

NO! These plastic shutters make these houses look worse instead of better. They are the wrong size for the window and mounted in the wrong location on the house.

YES! These real wood shutters are correctly sized for the window opening, mounted using authentic lift-off hinges & holdbacks. Real wood shutters make all the difference when the project is done right!

Oh, MY GOODNESS! What beautiful calendars you had made!! Our neighbors are very interested in your shutters and we are going to give them your information. We are so happy with your shutters, they are marvelous!  

Janie Dobbins

We received the shutters and I love them. As in the past, the workmanship is exceptional and I just wish I had more windows that require shutters. Thank you and keep up the good work.  

Rose Neville

I'm just writing to tell you that we're very happy with our new shutters, thank you!  

Jessica Dickler

The shutters arrived safe and sound. Thank you. It is a pleasure doing business with you.  

Fred Di Maio

Shutters arrived today. They look great! It's been so nice working with all of you. You folks are a class act. I hope we can work together again and I will certainly recommend Shuttercraft.  

Gregory Hooker

You were so helpful and I was so pleased with the results. It is lovely to deal with a company who follows through with their promises and delivers a quality product. All the best.  

Kathy Ellis

I received the beautiful bird shutters in perfect condition. I am so thrilled beyond words and appreciate all you contributed to the fun contest at Mary Jane's Farm. Thanks again for your kindness,  

Sandy Worley

We feel the shutters are beautifully made and painted and fully live up to our expectations--and then some. The 30-year-old shutters I thought looked great before now look slightly less up to par. Yours are the best. Our contractor (who is ace) also commented on the very high quality of the work.  

Leslie (and Stuart) Mitchner

Thank you, your company is first class and your product is outstanding.
